

**05/02/2008 Disclosure regarding published news about Enerjisa's nuclear power plant projects**

On January the 29<sup>th</sup>, 2008 Vatan newspaper has published an announcement of our Energy Group President Selahattin Hakman regarding nuclear power plant projects.

Our company considers energy industry as one of the primary field of operations and Enerjisa, our joint venture firm with our Austrian partner "Verbund", aims to provide 10% of all Turkey's electricity supply excluding nuclear energy till 2015. Enerjisa is currently working on investment projects of hydraulic, thermal and wind power.

Our company is willing to take part in nuclear power plant projects. We are currently in discussion with several investor and operator companies regarding this matter. Subsequent to the announcement of the auction process for a power plant with 5,000 megawatts we will try to determine the companies that we will act together in a reasonable time frame.
